DIGICHART

The Digichart is a revolutionary new solution with plug and play that allows you to create, edit and share meeting notes in the blink of an eye!

No more time-consuming typing up of notes or painstaking photocopying/scanning of large-format flip charts! The Digichart allows any notes or ideas written on a flip chart to be captured instantly on your PC and sent out via email within seconds.

1. Attach the Digichart to your flip chart

2. Connect the Digichart to your laptop

3. Activate the Capture program on your laptop

4. Select your preferred language and mode

CALIBRATE YOUR FLIPCHART:

5. Pinpoint where the receiver is located
6. Using one of the digital pens, tap to indicate both the upper and lower edges
